

BONUS (Optional) Labs 9

Due: April 17, 2014 (Thursday) 23:59

Objectives:

- Practice with JavaScript programming on DOM, together with events.
- Experience more interaction on HTML pages.

Specifications:

1. Create a new page (lab9.html) and place it under your public_html/labs directory if that's the way you organize your work. Or somewhere proper for you.
2. Make it accessible (e.g., a link to lab9.html) from your homepage (e.g., from A2).
3. Practice with JavaScript programming on DOM, such as:
 - Access the element, e.g., getElementById(), getElementsByTagName(), object collection (e.g., form) ...
 - Access and update the content, e.g., using property: innerHTML
 - Access and update the attribute value, CSS style, e.g., ... style.color="blue";
 - Events: onclick(), onfocus(), onchange(), onmouseover(), onmouseout()...
 - Etc.

You decide the topic and content.

Submission:

- No explicit submission, no email, no print out...
- Leave it on zenit account, I will check it after the due date.

Important:

Make sure everything you include on your page has no copyright issue, i.e., either you have the copyright or you are allowed to use it on your page.

Grading:

This is an optional lab with 1% for bonus.
